Mark Lane Express View.

LONDON, Aug. 8.—The Mark Lane Express says: The British wheat crop is now estimated at 7,000,000 quarters. This leaves 21,000,000 quarters to be imported. Deducting the stock left over from 1892, there will be needed 19,000,000 quarters. It is not easy to see where this supply is to come from. It will absorb all the good crops of Russia, India and southeastern Europe to fill British requirements. In the meantime foreign wheat is neglected. California is quoted at 2s. 3d. per quarter. Corn is cheap. Old American sells at 2s. and new American 6d. less.

An Sun Looked on Unmoved.

The stolid, impassive nature of the heathen Chinese was never better illustrated than during the Ford theatre disaster in Washington. Three pie tailed exotics from the Flowery kingdom conducted a "wash" in the auditorium just the second door below the historic old shell, where they are wont to pursue the even tenor of their vocation, which promotes the next neighbor to godliness. Something more than an earthquake shock would probably be required to shake any exhibition of interest from these Chinese.

Although the crash of the falling floors of the old theatre was not far from their ears, and their own roof might have come tumbling over their heads next, these Celestials did not manifest the slightest surprise. They simply stepped to their basement door to see that the street was still there and returned to their flat iron. Through the rest of the day, while thousands of excited people were clamoring outside, fire bells were clanging, ambulances rushing by, and dead and wounded men being carried past in plain view of their window, those laundries bent over their clothes and gave no sign that they realized the progress of anything unusual.

For all the symptoms of intelligence displayed by them, they might as well have been Pharaohs, trying up in their own skins. It might have been the disregard of human life which is said to be characteristic of the Oriental, or it might have been John's faculty for minding his own business, but, anyway, it was a queer exhibition.—Washington Post.
